

GapSummit 2018

The world's first global and intergenerational leadership summit in biotechnology

Global Biotech Revolution (GBR) is a student-led not-for-profit with the mission to inspire young people and support the next generation of leaders to ensure sustainability and growth of the biotechnology industry.

GBR's flagship event is the GapSummit. The GapSummit welcomes 100 future bio-leaders (Leaders of Tomorrow) from around the world. Leaders of Tomorrow are carefully selected to attend. In addition, the GapSummit also attracts world leaders from the biotech and pharmaceutical industry, who will engage, challenge and inspire the 100 Leaders of Tomorrow.

Apply for GapSummit 2018
16th to 18th April 2018, University of Cambridge UK

Applications open from 1st September 2017
and close on 30th November 2017

GBR will cover accommodation and most meals during GapSummit 2018 for all successful applicants. Travel bursaries are available for Leaders of Tomorrow who require financial support.

Discuss the current global bio-economy, confront the grand challenges to be solved by 2050 and compete in the Voices of Tomorrow Global Bioinnovation Competition. Discuss and brainstorm ideas and develop them to impact society now!

Dr Tedros Adhanom
Director General, WHO

Paul Stoffels, MD
EVP & CSO, J&J
